Better Built Bathrooms

Better Quality Installation

As well as being a thing of beauty a bathroom must be strong and reliable and also give many years service. This is why we at O'Connor Carroll go to much greater effort to ensure our bathrooms will stand the test of time.

These high standards include:

- The use 18mm marine plywood over floorboards to remove risk of cracking
- Where applicable, the use of plywood in shower areas
- All shower areas sealed behind tiling to remove the risk of water damage
- The use of fast-setting flexible cement based adhesives for shower areas
- We also use sealing and bonding compounds on all shower areas which have a far superior standard and longer life than standard silicon sealants.
- The use of flexible grouts throughout
- The use of high quality adhesives
- The use of chrome for trims

Customer Care

How do our customers feel? From the moment you engage us you feel you have engaged a company that you can trust, that you have confidence in. You know the bathroom you purchase from us will be built to the highest standards and will last for many years to come.

O'Connor Carroll have the team and the expertise and are more than capable of delivering on our promises.

Disability Bathrooms

Our bathrooms for people with disabilities are naturally just as finely crafted as any other bathroom we build.

People can apply for a housing adaption grant through their local authority. We are more than happy to work alongside your Occupational Therapist to achieve the perfect bathroom to suit your needs. This is a full supply and fit service.

Our disability services include:

- Disability bathrooms
- Wet rooms
- Curved stairlifts
- Straight stairlifts
- Ramps
- Rails

Our disabled bathrooms are fitted with the same level of care and attention as any of our products.

We can also offer advice on what grants may be available to you from your local authority

Stairlifts

Whatever your needs we can provide a solution whether it be a straight staircase or curved. We provide a free no obligation call out service.

Straight Stairlifts

A straight stairlift will give you the full use of the home you love. This stairlift will blend seamlessly into your home, and the smooth start and stop mechanism allows you to glide effortlessly up and down the stairs.

Curved Stairlifts

For more complicated staircase our curved stairlifts come with all the comfort and safety features that you'd expect. Due to stairlifts unique modular curved rail system, it can be assembled and installed as quickly as a regular straight stairlift.

- One day installation
- Fits to the stairs, not the wall
- Perch or Sit/Stand options available
- Outdoor option available
- Slimline fold-away design
- Full two year warranty
